

Dream of Nuclear Happenings 10-23-24@7:43 AM

I dreamed last night about Zelensky and Putin. Putin had fired his nuclear weapon's device on Ukraine. The devastation was horrible. Zelensky was screaming to the world in outrage about what had been done, trying to get more support. But there was little time for anyone to respond because the suitcase nukes began going off in the United States with very little time in between.

When the world saw this then it shuddered in fear and horror. Even though most didn't know it was an inside job as we call it ordered by the council 13 and the hidden secret society for those in our government loyal to the kingdom of darkness.

At this point Zelensky's face fell as he realized she's blackmailing days were over. There would be little or none, no monetary support now coming forth from the United States to aid his war against Russia. In addition I had the knowing in the dream that other nations would begin refusing to send the Ukrainian President more weapons and military support of any kind as they turned their full focus on protecting each one their own borders. Then I awoke.

I had this dream last night. While reading yesterday Holy Spirit pointed out Isaiah 26:20-21 to my son. These are the verses Jesus Christ You gave me multiple times for the coming three days of darkness. I had prayed last night and asked You where we were at in Your timeline.... Not those words exactly. This is your answer, this dream.
