

### Inside the 3 Days of Darkness Dream 3-9-24 & 3-11-24

Sweet Holy Spirit, I ask You in Jesus Christ's Name as John 14:26 and 1 John 2:27 tells me You will teach me but also bring to my memory the things from Jesus Christ my love. Father God has told me it's time to write the dream down He gave me on Saturday night the 9th and then more of it last night. The dream had picked up from where it had ended the night before like a continuation of the first dream. With your help now my sweet dear friend I shall write the dream together as one in Jesus Christ's Name.

It starts with everything black; it's pitch dark then I open my eyes. I am outside and it's getting close for darkness to fall. My eyes are drawn immediately to the display of colors in the sky before me. I hear myself exclaim out loud, "Oh' no, it's that time! I need to go inside before the sun goes dark and the moon goes dark or turns red in color. What do I do? Where do I go?"

I look all around and I realize I am in a flat open area with no place to hide myself. I look frantically at the darkening sky. The sun has begun setting but it's faster than normal. As if it's being dimmed or something is moving in front of it. I look for the moon, I spot it and it's beginning to have a red look to it. It's the 3 days of darkness!

I fell to my knees and cried out, "Jesus Christ help me!" The moon is now turning dark, and darkness is descending all around. I look towards the sky one more time as I am praying out loud. It's totally dark now yet I begin seeing lights coming toward the earth. Like they were being shaken loose from the sky above in all sizes. They're falling, falling so fast. When they hit some have the smell of sulfur.

I hear a strange noise and I looked to the other direction, and I saw a huge fireball, bigger than all the rest heading at a slanted direction straight toward me. As it drew closer, I yell out, "JESUS," as loud as I could. Then I awoke, my heart pounding and praying fervently to my lovely Jesus. This was the first night I dreamed it on the 9th of March 2024. Then last night on the 11th because it was after 2:00 AM before I finished your work, prayed then went to sleep, I dreamed it again. This time it started when I began to see the first lights of the falling stars, fallen angels, meteors, and one huge fireball different from all the others.

I watch in wonderment yet fear too because my lovely Jesus Christ has already shown me and told me what happens to anyone caught outside during the three days of darkness without any place to hide. That person will be shredded into pieces by the demons, fallen ones, and all the evil being released during this time. Whether they are saved or unsaved because just as the Israelites were told to stay inside during the time of the three days of darkness so have, we all been warned.

It's eerie quiet and once again I'm on my knees now fervently praying to my lovely Jesus Christ. I can no longer see the sun or moon and the dancing lights are gone. The constellations are no longer displayed, it's dark! "Jesus Christ help me!" I cried as loud as I could. I could feel the darkness as if it were alive.

Suddenly, I felt a hand upon my right shoulder where I was bent over on my knees crying and praying. I heard a voice say gently, "Daughter of Faith, of Zion peace be unto you." Immediately I felt peace, Father God's sweet peace enter into me and course through my body. The fear began diminishing as well. Yet it was still dark black like black I had only witnessed before in the outer darkness found in the pits of hell, in the lower abyss.

"I can't see," I managed to say, my voice still weak and shaky from the heavy crying and praying. Suddenly, there was a light shining around me and I turned to see who had touched me and spoke to me and now had given me light where no light could be found.

There before me is the Angel Seth I had seen before, having met when Father God or Jesus Christ my love had sent him to show me things, they wanted me to know and in most cases to warn about. He looked at me with his intelligent eyes with compassion and understanding.

He's dressed in golden armor but underneath his armor I see beautiful, pure white. "Seth!" I exclaimed in surprise and thankfulness at the same time. Then I began speaking very fast to him as relief washed over me. "The 3 days of darkness have come and I'm outside. There was no place to hide. Now the stars are falling," I said as I pointed to the sky then stopped suddenly.

It's like everything around us has been frozen in place, in time except for us. "What's going on Seth?" I asked excitedly. He gave me a small brief reassuring smile then said, "Daughter of Faith, of Heaven's Court you are safe. You have been brought here to see what cannot be seen when the 3 days of darkness fall upon your world. All these things that occur as you're seeing inside the thick, outer darkness will not be seen by natural, physical eyes.

You are seeing firsthand some of the events to occur during the darkness as judgment's hand falls from the Righteous Risen Lamb who is now in His role as the Lion of Judah, the fierce yet honorable holy Judge and King. His time has arrived, His Day shall begin." Seth said reassuringly.

"The Great and Terrible Day of the Lord, the wrath of the Lamb has come," I whispered. "A day containing many inside it as judgments fall, prophecies are fulfilled, His wrath falls then He will reign for 1000 years. This is the Day of the Lord," I said.

“Mostly, in part yes, it is,” the Angel Seth replied to me. “Seth why is everything frozen in place around us?” I ask questioningly. “There are fireballs, or falling stars that are suspended in midair I see all around in the sky.” “Because Daughter of Zion and of Faith it would have been hard for you to listen and concentrate with your human mind of all I'm saying as destruction falls all around you,” he simply said.

I felt kind of sheepish as I said quickly, “You're right. That would make things difficult to concentrate as great balls of fire hit the earth's ground shaking it and setting everything on fire.” “Exactly,” he replied with another brief smile. There is kindness in his eyes. The kindness I have seen so often in the eyes of my lovely Jesus Christ.

“Seth is all this is going to be happening under the cover of the three days of night, of darkness? I asked. “No one can see inside the outer darkness and those who do not have Jesus Christ in their hearts are going to be terrified by what they hear. What they do see will be what is projected inside their minds.”

“This is only partly correct Daughter of Heaven's Court,” Seth answered to me then continued. “The darkness that comes is the same as in Pharaoh's day that was seen as judgment upon all Egypt except for the land of Goshen where the chosen children of God resided along with Moses, beloved servant of the Most High God, the I Am that I Am, Jehovah, Yahweh is His Name.”

“But those who are of a spiritual body and those who are created as nephilim children who are more fallen Angel than human can see in the darkness such as this. This is how they give those who serve them the ability to see in the dark the same as if it were day. But it will not be that way when this darkness falls.”

“There will be no lights in the Heavens, the firmament and all it contains except for those whose hearts have the Blood of the Risen Lamb applied. This Blood will be what protects those who are His. His Blood identifies the location on which light will be granted and the darkness, this alive outer darkness is restrained by the great God of Heaven's command. Nowhere else will any source of light be found in all that the Great I am has created when He created your world, and all that He created before and after.

“This means even the fires and the falling stars will not be seen.” I said incredulously. “This is correct,” the Angel Seth replied. “But you have been granted supernatural sight to see what in part shall befall the earth and all its inhabitants when the three days of darkness fully descends.” “I understand,” I replied quickly.

Seth nodded his head then raised his hand and suddenly the stars began falling. There are so many and they're falling fast and they're all over the skies. But then I notice there's

different colors in them as they come falling down, down so very fast, some smell like sulfur.

“Seth, why are some of them different colors?” I asked, “these falling stars.” “They're not all stars alone. Inside these that are falling shall soon be the releasing of fallen angels once bound for their great sin upon mankind. They will also be released from inside the waters deep and located in the lowest levels of hell were in the abyss located, and its outer pits. It's the time for those once bound to be freed.” The angel Seth spoke in a serious voice.

“Does this mean all?” I asked. The Angel Seth replied, “All is released at the appointed time of the Holy Father, the Almighty God Most High.” “Does this mean those in prison inside rocks and mountains shall be freed too?” I asked as I watched fireballs falling and erupting into flames.

“Yes,” the Angel Seth replied. “The war in the heaven rages. The devil and his angels, that serpent and satan shall be cast out of the Heaven, the upper firmament as well and then woe upon woe shall befall the earth. Mankind was warned out of love from the Lord God Almighty strong and true and His Son Jesus the Christ. Now the time has arrived, and the Great Day begins now,” the Angel said.

He spread his hands out before us and suddenly it was like I was looking at multiple screens of so many places upon our world. Grand cities, mountain ranges, ice regions which I felt are in Greenland and Siberia. I was watching as fireballs fell, some we would call meteors, while others were different colors than the rest.

I started seeing what looked like balls of white and blue flames and they were mixed in with the other falling stars and meteors but their colors of these were very bright. “Seth, what are those fireballs that burn white with blue? They're striking some of the places. O' Jesus help us, help them,” I said out loud as houses instantly caught on fire, meadows, trees, vehicles, and pavement.

He responded to me and asked. “Does not the Holy Scriptures of Truth say these things would be when your world is like as in the days of Noah?” “Yes,” I answered. “Yet few remember the Word of God also warns that it will also be the same as in the days of Lot. When Lot and his family were led to safety except for his wife who drawn by lust for her life she was leaving caused her to look back to Sodom and she was turned into salt for her disobedience He had also that very day rained fire and brimstone down as their judgment. This is what you are witnessing as the Risen Lamb's Great Day is revealed. “Oh,” I gasped, “I had never caught that before,” I said. “Few have,” he replied.

Suddenly, I heard a rumbling noise, and the wind was oddly stirring. I looked up and there falling from the sky is the giant fireball that my lovely Jesus Christ had called a she. I know

it's her, it's the one because I had a flash vision of her when I first received the warning in 2022. It's coming in fast. It's dark yet surrounded by fire. She has a long, long tail of fire. It passes over us with a roar, a sound like thunder but louder. It began passing us and it's heading downward at an angle. As it passes overhead, I catch a glimpse of red among the dark almost black, if not black color of this great fireball. It doesn't look like the others. Then suddenly it passes leaving a brilliant fire trail behind it. For some odd reason it seems to be on a set course.

I look up towards the sky again and I see movement around the area of Orion and Pleiades which are about the only two constellations I could identify besides the big and little dipper. There is a brilliant light like an orb dancing around one of the constellations then the other. Immediately the stars located in Pleiades and Orion begin falling swiftly into the sky downward. They're falling so very fast. It looked strange in the sky as other stars appear to be missing which once were held in place by God's command.

“Was that brilliant orb of light one of Father God's holy angels releasing the fallen angels who had been bound in the sky?” I asked the Angel Seth. He nodded his head yes, then he said, “Daughter of Faith, hold on to me. Brace for impact.” “What!” I exclaimed but I grabbed his arm with both my hands as he waved his hand and one screen appeared and there descending fast was the large, strange fireball that Jesus Christ had called a she to me.

“What is it?” I asked as I saw it hurling down to a body of land. “It is the return of the nephilim children of the fallen ones who were once restricted from returning to your world,” he replied. “How? What?” I asked just as it impacted the land. It hit hard and the impact shook the earth, especially the point of impact. The force was great, causing much damage to the area and those nearby.

It shook me violently and if not for me holding on to the Angel Seth's arm and his protective hold I most likely would have lost my balance. “Thank you for the warning and the help,” I said shakenly. “Why did it look like it was on a set path but then veered off course,” I asked? “And what is it this giant fireball that has fallen to the earth with the evil nephilim children of the fallen angels?”

Seth's mouth rose into a thoughtful grin as he said, “The man of sin miscalculated. The kingdom of darkness assumed they would utilize some sort of light different from what your world uses. They were wrong. They can see in the outer darkness, but it's lights out for all but the Lamb's children.

“Oh,” I replied with a slight smile of my own but then I asked. “Seth did this just cause the great earthquake of Revelation 6: 14 where every mountain and island were moved out of

their places?” “Do you see every mountain moved out of its place? Do you see islands move, sinking as new ones rises?” He asked.

“No, but it mentions the great earthquake in scriptures immediately after the moon and sun are darkened and the stars are shaken and fall out of their places,” I replied. “So, it does,” he said, “but once the seal has been opened as it has, nothing commences until the appointed time of the God of Heaven who created all.”

“Look at the 1st four seals and see the truth of my words Daughter of Zion and of Faith. Seal one is opened by Jesus the Christ and the white horse with its rider carrying a bow was immediately loosed and sent forth. This is the same for the second seal with a red horse and its rider who was immediately sent forth to take peace from the world with the sword.”

The Angel of God continued,” The third seal containing the Black Horse and rider and the pale grisled horse and rider of death with hell following both were opened but were released to ride at a later time. Such is it so with all the seals with the six being no different.

“What is released will be released when the Father of Lights of Heaven declares it to be. The great earthquake is yet to come and 9 is the time for the event to come.” Then I awoke.
