

Prayer against weather manipulation and other technology 4-24-25

Vicki Goforth Parnell

Please put your prayers and agreement of faith with me as we take out from inside the firmament and out of Lucifer...lulu and all inhabitants known to Father God all fire starting, weather manipulation and laser/waves/sounds/ music and such like technology, device, weapons, knowledge and such like, earthquake technology, devices, weapons, knowledge and such like and any other thing known to Father God that all possessed that would harm the inhabitants of the earth, the animals and such like and the earth itself. Then when a storm or earthquake or such like occurs no man, no fallen scummy angel or such like can take the credit for what He is doing. In addition I'm asking for all cern and dark matter type knowledge, technology, machines, weapons, devices and such like be destroyed and removed from inside the firmament as soon as the 3 days of darkness lifts but whatever can be done now for it to immediately be removed in Jesus Christ's Name. In addition I am praying that there be stumbling blocks, rock of offenses and rumors of the Lord to prevent any more of the fallen ones' technology and knowledge directly, indirectly or randomly from leaving below the ground or water permanently. Also that they cannot bring anything else like dark matter or such like from the Spirit realm. This way the left behind will have less to face and the enemy's hand will be greatly weakened. All for the glory of Father God.

Who will stand with me in this prayer?

And yes, there will be no retaliation, backlash, interference, spying, monitoring, astral visitors, revenge and such like that Father God knows of ever inside this firmament in any form or shape possible directly, indirectly and randomly in the mighty Name of Jesus Christ. All for Father God's glory and those currently in our world enduring these evil acts and the left behind.
