

Vengeance is Mine 10-24-25@5-31 PM

When you hear Lord Jesus Christ talking about this night, this day, tonight, today, tomorrow, it can mean the very day you're in, the very night, or it can be the appointment He's talking about, or one from the past, one. It can be one in the future, or His day He's speaking about, and his day is a lot more than our days. Our days make up one of His days.

You stiff-necked of uncircumcised hearts, Hear the words of your holy God and King for it is written vengeance belongs to Me. This night, this very night before evening shades fall I extract My vengeance on Babylon America, the harlot of all harlots. Let vengeance flow in fiery streams as I recompense you for all the evil you have done. You stink, your stink has reached to My holy heavens and repeatedly you have failed to repent although you have been given time over and over to do so.

Hear Me now roar as I, holy Judge and Lion of Judah extract My vengeance on those who have taken a life so carelessly not once but many times. How many times wicked Babylon has your government and its people taken another's life, stolen their good, used bribery, slandered your neighbor, your boss, your own family just to get your evil biddings done? How many times have disease, plagues, illnesses and pestilence been sent of all kinds to call you to repent/ How many times have I sent storm upon storm destroying crops and land, homes and businesses on land and sea? How many times have you lusted after your neighbor's wife or husband and defiled yourself with them or laid man with man or woman with woman and many times all these together? You were called to repent. How many times have I refrained the rain, burnt the land, sent mildew and mold, yet you still did not repent? Do you know America-Babylon? Do you have any idea how many times for each not repented of? Let Me tell you, it's more than triple the number of babies you aborted in the mother's womb each year and so much more. Do you know America-Babylon? Do you? No you don't, nor do you have any way to count that many. And I say with all assurity neither do you care but I do.

I have counted each and every one of these things including those things thought hidden and not mentioned here. I have weighed them all each one each time in heaven's holy balances. You have been weighed separately and together as a nation. You are guilty! Guilty, guilty, guilty! Tonight I say, I extract vengeance for all these wrongs. I burn you with nuclear flame by the very weapons you used upon others. What happens once will happen again the same pattern but in a different way. Man murmurs and complains, "What gives God the right to take a life when He tells us thou shalt not kill?" You call Me two faced. Fools! You do not realize that to judge righteously and to recompense a just rightful reward for wrongs done you have to know all things so all can be weighed together. This you can never possess, this type of knowledge nor can the fallen ones you worship and serve so loyally. You are about to see O' world who holds the real power and how much of a God of love I really am. Or you would have been destroyed and consumed off the earth for your hideous acts and crimes like when I cleansed the earth of sin and evil pollution by the fallen ones at the time of the great flood of Noah's day. My vengeance falls on Babylon-America for leading the whole world astray. It falls tonight with your own man-made fallen ones nuclear technology. This is fair, this is just because now you are an accursed thing to Me. Only those inside your walls who are Mine, bought and paid for by My Blood still have My favor and

protection when they listen heed and obey My voice. If not they may very well find themselves in the path of destruction of My furious anger, because of their own disobedience. You burn evil Babylon, you burn now. You burn tonight.
