

## **The Cloud Cities, CERN, & the Darkness Dream 4-8-25 @ 1:09 AM**

Jesus Christ, Father God, sweet powerful Holy Ghost Spirit, I dreamed again. Help me, sweet Holy Ghost friend to write this out, as You have done the others in the past. Don't let me write one single word, in Jesus Christ Name, I pray and ask, that's not from Father God or His Son Jesus Christ. "I will, Daughter of Zion. Now write as I show you it once again."

I found myself outside, looking up at a clear blue sky with some puffy white clouds. It was beautiful. "I love to see the blue sky," I thought to myself. "And the clouds, they are fluffy, and not pulled out; not stretched out and straightened out across the sky as the man made ones utilizing the fallen ones forbidden technology make. These are God-created clouds," I said happily in my mind. Within moments of me thinking this, I began to see jets coming into view, dropping their chemtrails, or contrails, they are also called. They began covering the whole sky, crisscrossing and making great X's in the sky. I looked on in disgust, and frustrated, as I asked out loud, "Father God, why must governments and such like keep dropping things like aerogel and nanotechnology, beside so much more, to try to change, mutate, or kill all that's upon and inside our world?"

I heard His voice reply from the heavens, "Little Daughter of Mine, yes, this is much what is found inside these things. Including the use of them for weather manipulation, but that's not all. Tell Me what you see, Daughter, now high in the sky." "Okay," I replied, though still frustrated. "I see, instead of the blue sky and the puffy clouds You created, almost all the blue sky is hidden and the clouds are a stretchy mess. Surely man is an amateur next to You, Father God," I finished. "Yes, little Daughter, they are," came Father God's reply from the heavens above. And then He continued, "But look closer. Look again with your spiritual eyes and tell Me what you really see. Tell Me what they're trying to hide." "Okay," I replied. I studied the messy clouds, as I prayed in Jesus Christ's mighty Name. Suddenly, it was as if a hand brushed aside some of the clouds and I saw the shadowy outline of a wall, a city wall. "They are hiding their cloud cities, their cities in the sky!" I shouted out in surprise. And then I quickly asked, "Daddy God, why?"

"They are being moved into position for the 3 Days of Darkness. They are trying to keep their cities in the general area needed to give them the proper coverage of power needed through their diamonds and sapphire of power to break through the barrier wall between the physical and spiritual realms in your world inside the created firmament. Remember, Daughter, it's during this time I shall cast all the evil, including man's technology, out of the earth's upper heavens. This includes their satellites, so they are preparing coverage through their cloud cities. So to do this, they have to continually reapply the fake clouds generated by their technology, as they move back into their needed established locations." "That figures," I replied with a bad taste in my mouth. Then I said, "I guess they're still manipulating the weather and dumping the cocktail poison in all the world, in addition to trying to keep their needed cloud coverage." I heard Father God reply, "Yes, of course, Daughter, because they're truly evil to the core of their beings."

"What else are they doing?" I asked Father God out loud as I continued to look up to the heavens. "What else are they doing, Father God, in their preparations?" "Little Daughter, I will show you," came His swift reply. Then I felt myself being picked up and whisked away as if by an unseen hand, only to be deposited in an area that looked familiar, yet also different at the same time. I am

dropped safely to the floor inside a building I recognize. I'm at the CERN facility in Switzerland and France underground. "Father God, why am I here?" I asked out loud. This time His voice did not respond, but I heard another speak to me. "You are here, Daughter, to see the answer to your question." I turned to see it's my Lovely Jesus Christ. He has His brown hair with red rust hues, I can see. His beard and mustache are of the same color. He's dressed in a pair of jeans and a snow white T-shirt with a pure white lab coat over His clothing. Joy overflows in my heart and I ran to Him and hugged Him tightly as He hugged me back. It didn't matter to me that we're in a high security enemy facility. Jesus Christ is my everything.

"Jesus Christ! Jesus, I love You!" I cried out. "I love you, too, Daughter." And I could feel physically and spiritually His love for me in every word He spoke. I heard Him say in a soft voice, "Daughter of Mine, Father has sent me to show you the enemy's plans in advance. I could have sent an angel, yes," He said as if reading my thoughts of why He came instead of sending one of them. But He didn't supply any further explanation at this time. He pulled slightly away from me and looked me in the eyes. His eyes are pure holy fire. He is holy. So pure and holy while I am not, I thought as I dropped my head. I felt His hand reach under my chin and lift my face to look Him in the eyes once again. "Daughter, I give unto you, unto My children, My righteousness and this makes you worthy." I couldn't help but smile as joy filled my heart. He always knew exactly what to say and do, after all, He's our perfect High Priest. He smiled at me, then took my right hand with His left as He said, "Come, Daughter." "Jesus Christ, why are You wearing a lab coat?" I finally asked as we began walking. We kept on walking as He said, "I'm dressed to blend in just as you are, Little One of Mine." "Huh?" I said. Then looked down at my clothes I was wearing. I'm dressed in a pair of beige dress pants, a nice blouse, and a lab coat of white, too. But mine did not appear to have the pure whiteness that His did. I saw His smile as He said, "Come, Daughter, we're almost there. I followed Him without asking any more questions.

All doors opened without hesitation or security clearances for my Lovely Jesus Christ. Strangely enough, we didn't encounter anyone until we arrived at the Large Hadron Collider Control Area. No one looked up when we entered, nor seemed to notice us. There was a bustle of activity. "What's going on?" I whispered. Jesus Christ my Love replied in a normal tone of voice, "They're preparing to restart the Hadron Collider." "Oh," I replied. "But why now? I asked in surprise and then said, "Hasn't it been turned off since October 2024, or around this time?" "Yes, Daughter," He replied as He looked at the hub of activity and the pre-test being done in a flurry of movements. Then He turned to me and said, "You asked what else are they doing in their preparation for the 3 Days of Darkness. This, Daughter of Mine, is your answer. They will reactivate CERN's Portal Particle Accelerator. Its LHC so they can open and maintain the portals needed to bring through the spiritual wall barrier, the divider between your physical realm and the spiritual one. It's through these such devices all over your world they will gain access into the spirit realm to open portals, doorways, for them to enter your physical realm; the nephilim, the fallen angels, and the demons, as will be allowed by My Father when the 3 Days of Darkness fully descends."

"Jesus Christ, my Love, will not all power supplies and sources be shut down? I thought CERN's LHC ran off of electricity," I said thoughtfully. "It did. It can," He replied, "but it has also been modified to run off the power supplies of the fallen ones, their diamonds of power." "Why is this allowed?" I asked Him quickly. "Because, Daughter, when sin is left unrepented in a people or its

land, that allows the kingdom of darkness of Lucifer to have certain legal perimeters he can operate. This is because those with sin in their hearts are part of his kingdom. Those who have repented of their sins and accept Me, Jesus Christ, into their heart as their Lord and Savior are of Father's Kingdom, our Kingdom of Light. If none of My children intervene with prayer and even fasting at times in My Name, they are legally able to continue in their evil activities." "I understand," I replied. "Does this mean if I prayed right now in Your Name for all the portal particle accelerators and such like to not be allowed to be used during the 3 Days of Darkness, they would not be able to utilize them if this is in Your will?" I asked my Lovely Jesus Christ.

He smiled at me and replied, "There are times to legally intervene into the happenings in the world. It can be done through the prayers of My children, Our children, praying in faith believing in the power of My Name for it to be answered. I do recommend these types of prayers to not be vague, but effective when prayed," He finished. "I understand," I replied. I looked at the activity all around and then asked, "When they open these portals, they are ripping the fabric of space and time in the spiritual barrier wall, aren't they?" "They are, Daughter," He replied. "Okay. So, if they turn these machines and devices on all over the world to open the portals, the doorways, to allow the demons, fallen ones, and nephilim, and whatever else they created in their depraved minds that's going to cause these openings to be kept forcefully open all this time. With the destabilization of our world already due to the demagnetization of Your Black Rock, this will not only allow them entrance into our world and cause damage to space and time, but it could have terrible effects upon our world and its inhabitants, even before Your great wrath is poured out, couldn't it, Jesus Christ?" I asked as I began to understand more in depth the damages that these types of machines and devices were causing our world and earth.

"You are correct, Little One, Little Daughter of Mine." "Then I pray and ask You, Jesus Christ, in Your great and all-powerful Name, in faith, without doubt or wavering, for the kingdom of darkness to not have use of their fallen angel technology used in the world of men to power any type device or such like, directly, indirectly, or randomly, including their diamonds of power and such like during the 3 Days of Darkness, beginning with the auroras, the colorful dancing lights. I ask they be limited to electricity or other known power sources that Father God knows of, that will be shut off during these aurora lights for them and the 3 Days of Darkness for the world. Father God, I petition Heaven's Court for these Portal Particle Accelerators, the dark matter devices and such like to not be allowed to be powered up or used during the 3 Days of Darkness or the aurora lights, as Your earth cries out and all creation, at the atrocities done by the hands of the wicked ones. Please, Father God, I ask my petition be granted. Also for Your children who will be left behind. Already it is more than most will be able to bear, according to Your Word, of all the horror that's coming. Only the strongest in You and Your Son shall endure until the End. Grant me my petition, my request. In addition, I ask please send any of the kingdom of darkness who does not make it through the spiritual barrier during the darkness, as the two realms merge into one, let them be bound in everlasting chains and cast into the Abyss with grievous torments and heavy burdens, and held there until they're thrown into the Lake of Fire."

As I'm petitioning Father God, suddenly I found we were before the Throne of Father God in Heaven. Jesus Christ, my Lord and Advocate is beside me. "Father God, I ask all these things in Jesus Christ Name. But also that You will not allow the kingdom of darkness directly, indirectly, or randomly to retaliate, hinder, harm, give backlash, revenge, scheme, plot, or plan, monitor or

spy against my family, this ministry You have placed in my hands, my true brothers and sisters in Jesus Christ, those still to come, and me. That no thought or acts of aggression even be allowed for this prayer petition or the things I do in Your Son's Name, but according to Your perfect will in our current timeline You have in place."

After speaking, I bowed my head reverently to Father God. I couldn't see His face because of the glory all around Him, but I could see Him on His Throne. I felt Jesus Christ grab my hand and give it a reassuring squeeze. I felt His peace surge through me. The whole room was silent until finally I heard Father God speak from His Throne. "Daughter, your understanding of this situation and the petition you have given in My Son's Name is fair and just. Your petition is granted. Lucifer's entire kingdom will be notified immediately their portal devices and such like shall not be allowed to be powered up, even during the dancing colorful lights. All such portal and doorway technology is now shut down by order of Heaven's Court during this time, for Our children who will be left behind, even though it is in disobedience, and for My creation, the earth, and all that cries out to Me in despair. Let it be written in the Halls of Heaven, and dispatch messengers immediately to the kingdom of darkness. This is effective immediately inside the created firmament of the earth and all it contains."

Tears of joy flooded my face as Jesus Christ my Love hugged me once again. Then He pulled away and looked out as if looking out at a crowd. He spoke these words in GREAT AUTHORITY, "Lucifer! I told you I have children who would rise up to the occasion in their faith in Me. This is Checkmate for your portals, doorways, and such like technology that you misuse from the knowledge your fallen ones and you gained while a part of Heaven. Your hands have been tied by one child of Mine praying in the authority of My Name. Now, do what you've got to do to make your preparations because any left behind the spirit barrier, you will not retrieve at a later time. I shall have them bound, just as you shall be soon after. The darkness comes now because mercy has been granted to My children waiting on My return this time." And then I awoke.
