

Vision of the Tungsten Rods of god Falling 11-17-25@8:27 AM

You are called to try, test, and discern this. Prove all things, hold fast to that which is good. 1 Thessalonians 5:21. 1 John 4:1 Beloved, (brothers and sisters in Jesus Christ,) believe not every spirit, but try the spirits whether they are of God: because many false prophets are gone out into the world. What is that verse saying? Try the spirit behind every person and everything, for the fact of finding out if it's from God or not. There's power in Jesus Christ's Name. There's Holy Ghost discernment. There's prayer. There's questions you can ask with the Word of God. There's so many things you can do. The sheep know my voice from another, they will not follow John 10, chapter 10 talks of these things.

We (Jesus Christ and me) were actually talking about war. I'm not even going to what we were talking about. War coming to America, nations invading and things like that, and then this vision came. And He was talking to me, started talking to me about the rods of god. That's what they're called. The rods of god. Not God as in God Jehovah, as in thor, the fake god. You know, if you think about it, thor would be a nephilim...half fallen angel,,, half god and human. He's a Nephly and so many people worship him.

Vision of the Tungsten Rods of god Falling

I see them, Jesus Christ, the tungsten rods of god, you've shown me so many years ago, that's not supposed to exist. They do exist. They're releasing from high platforms in space...satellites in the atmosphere. They're long, wide and round. I see them falling, falling fast and quickly descending downward, like a speeding missile. When they hit, they hit hard, and the ground splits and the area erupts with shockwaves of hurling destruction. It levels buildings, trees, throws cars, vehicles, those not crumpled by the force of the impact. Destruction is everywhere. It rumbles like a mighty force. It reminds me of the devastating force of the nuclear bombs going off, but without the nuclear power and its ill side effects of radiation and such like.

“Oh, Jesus Christ, where is this? Wait! I see three more falling from the sky at breakneck speed, we say here in the South. Nothing can stop them, Jesus Christ, except a holy command from You or Father God. Why am I seeing this? When does this happen?” I see the other three hit, and it's like I'm now seeing a movie screen showing all three locations these rods of god are speeding toward. It's like I saw them hit, but then it was like it was done again in slow motion. That's what I was meaning here. The first location looks like the buildings that belong to the Kremlin. The buildings there are very distinct from others and I have seen pictures of where the building tops remind me of the shape of a Hershey's Kiss candy, but they're swirled with various colors of blue, white, greens, and red, some gold too, if I remember correctly. But also a building with a clock that's portrayed in it. It reminds me of Big Ben in England, but it's different in many ways. “Lord Jesus Christ, is this in Russia?”

I see on the screen another location of both modern and old buildings. One building roof sticks out to me. It's shaped like the bottom half of an hourglass, but it's bright blue. My eyes are drawn to it. There's smaller blue ones near it too, the roofs, but modern buildings near it. I see, I see that one of the rods of god is aimed at this location. “Jesus Christ, where is this?” I understood somehow,

now, this is Baghdad in Iraq. (I did look and the building is there. It's a bright blue with some gold on it, the very top.)

I see the other picture. The last scene takes full view on the screen before me. I see, I see it looks like a large city. I see there's one building that rises above the other. It's what I would call a skyscraper. It's tall and narrower than most. It's got what looks like a round ball with a wide ring around it and a pointed top that reminds me of a white needle from this view that narrows as it comes to a point. So, it's a thinner type building, kind of like the shape of the Eiffel Tower as it gets bigger and goes smaller, and it's got like a needle point on the top. That's what I call it. There is a large mountain range behind it. The buildings seemed closely packed together. "I'm not sure where this is, Jesus Christ, where is it? What place am I seeing?" "It's Tehran. You have seen three of the four targets that your nation's government and president shall use in retaliation of Putin's first nuclear strike. This will be used along with other attacks sent against your nation's enemies. Remember, daughter of Mine, your nation's fleet near Iran and Iraq shall come under attack near the time which is near the time of Putin's strike, which is why the tungsten rods will be sent to their locations instead of the nuclear ones launched in response to Putin of the bear."

"The vision is gone now, Jesus Christ. My breathing is heavy. Oh, Jesus Christ, there's so much destruction." "Yes, daughter, there will be for all." "Where was the first location I saw where the actual rods of god hit?" "That too will be in Russia in a location called Teykovo in what is called the Ivanovo Blast." "Why there, Jesus Christ?" "Putin knows and so does your military forces. Such is a way of evil in the hearts of men and women who embrace sin and pledge their allegiance to the angels that fell into sin before all others."

Please take this to Jesus Christ in prayer.

Verses:

Amos 3:7; Ecclesiastes 3:1-8; Psalms 22:8; Isaiah 41:2; Acts 17:26; Proverbs 29:18; Psalms 40:16; Job 12:23; Psalms 46:7; 2 Chronicles 36:15-16; Hebrews 2:2-3; Joel 2:28; Numbers 12:6; Psalms 37:7; 140:8; Proverbs 1:31; 1 John 3:20

Please take this to Jesus Christ in prayer. Try, test, and discern it as we're all called to do. It's not a, "Please will you do this." We're being instructed in the Word of God to do this. It's to help, to help keep us from being deceived. Matthew 24, 24 talks about if it were possible, the very elect would be deceived. Discernment is knowing the difference between what's right and what's almost right. So in all that we do, we should be doing it with the Lord Jesus Christ's help, with Holy Ghost Spirit's help, everything this Word of God tells us to do.

You know, if we know to do something, to him that knoweth to do good and do it not, to him it is sin. So if we know we are called to do this, as this Word says, and we choose not to, we're choosing to be disobedient. If you have people that say, "You do not have to discern this, this is from God, you know it's from God. I'm a pastor. I've been a pastor for years. I know the voice of the Lord. I've been a prophet. I have a prophet school, whatever you want to say." You're called to try to discern it for your own self, because we're not perfect. We're not perfect. Only Jesus Christ

was perfect. So even if it's your mama, you're called to discern it. So please take this to Jesus Christ in prayer, try testing, discern it, please, for your own sake.
