

## **A Vision Of Nuclear Fire, Volcanoes, Falling Rocks, And Tsunamis 5-8-25 @ 11:36AM**

“I see my whole view suddenly filled up with fire, raging hot blazing fire. I saw it expand outward and houses exploded. Tall apartment complexes seemed to melt before my eyes. Cars, trucks, and other vehicles melted; all melting from the fury of the flames, Lord Jesus Christ.” “Daughter, the size does not limit the power.” “These devices, the nuclear devices, are small in size, but they’re powerful.” “Yes, Daughter, more than what people think.” “I see the flames; I still see the fire.” “This is the time, Daughter, for these things to occur. When it erupts on the ground, instead of in midair, it bursts into flames like a ball of flame, then it shoots up with dust and debris and all these things, and the cloud forms, the mushroom cloud, even in the small ones. I see it.” “Yes, Daughter, it does.” “It looks like the flame is alive. The flame is alive, Jesus Christ! Father God, the flame is alive! Father God, Jesus Christ, do You control this flame? It’s an element in our world and You control it.” “Yes, Daughter, I do.” It melts everything at the impact point, the detonation site. It melts it, I see it just disintegrates it. It disintegrates it all, Jesus Christ, it melts it. The heat, I see, is so hot it just melts it.” “Yes, Daughter, it does. Such is the way of evil, wicked men.” “The wind, it’s fierce, I still see it all. It’s like it billows out with an incredible force as the fire roars. The flames, this weapon’s detonation comes with a mighty wind, a very undescrivable wind. The closest I could possibly consider would be a hurricane wind of a great magnitude. Now, Lord, the cloud looks like black and grey. Lord Jesus Christ, I know many of Your children didn’t move that You were calling them to move. I ask if they still have a purpose for You, to let them be out of Ground Zero.” “Daughter, that’s not a call to make.” Your will be done, then, Lord because You have sent Your warnings forth.”

“I’m now seeing a volcano with red lava oozing out of it.” “Daughter, this is a separate event. It is to occur, too.” “It’s a tall, standing upright volcano. The red lava is oozing out of its top. It’s a peak type volcano, like a mountain. Jesus Christ, from a distance it looks like a bluish in color or bluish grey. I see, I know this is Mt. Saint Helen, and I understand it shall erupt when Yellowstone does.” “Yes, Daughter, it is and you are right.” “Now I’m seeing Yellowstone and it erupts. I’m not sure which comes first. It erupts from the ground (It’s an underground volcano, more or less). It’s in the ground. Jesus Christ, does this erupt with the earthquake when You return? The one in Revelation 6:12-14?” “It does, Daughter.” “Devastation, devastation, devastation. I see devastation. I hear, “Devastation.” Jesus Christ, when You split that firmament, when You come through that sky, when You come for Your children, the earth splits. The mountains fall. The earth quakes and these erupt.” “Yes it does. It’s not as you thought before, Daughter. Now you see the truth. It will erupt mighty, but will not wipe out the whole world as some people say, or even your continent. But it will take a big chunk out of it.” “Lord, there’s going to be a big chunk taken out near Yellowstone and Washington, Washington State. I see it. In addition to being split, America will have, for lack of better words, like chunks out of her.”

“I see now a tsunami. Very tall, very fast, reaching high. Very high and tall in the sky. I see it rushing to land. Lord Jesus Christ, it’s on the east side of America. Not the west yet. It comes from the east. Lord, I see it.” “That is correct, Daughter.” “I see it from the front view, Jesus Christ. This east tsunami also happens when You return when the Great Earthquake of Revelation 6:12-14 happens. I can see it all.” “That is correct. The West will be invaded first.” (Meaning before the Tsunami on the west of America.) When You return, America... Babylon to You, gets split. I see it, I see she gets divided and split into 3 places.... 3 parts. I see, Jesus, part of

California will still be there after the volcanoes erupted. 3 parts. I see, Jesus, part of California will still be there after the volcanoes erupt. Lord, I see again Washington's Mt. Saint Helen and Yellowstone. I see now other locations in our world having the same type of eruptions. I see the Ring of Fire. So, Washington's volcano, Yellowstone's, and the Ring of Fire, they shall erupt. It's because of this, the releasing of some of the pressure that Yellowstone's force will be lessened. They will all be activated." "But, guided and guarded by My hands, leaving Antichrist a devastated world to rule."

"Oh, oh, okay, Jesus" "Daughter, you will be safe. Daughter, you are safe." There's devastation. There's destruction. Oh God, what about Your children, Jesus Christ?" "They chose to go through it by refusing Me. By refusing to put Me as Lord of their lives they will go through it. You will be protected; you and the other one." "Oh Jesus, oh Jesus. Oh Jesus, I still see it all!" "The tsunami, Daughter. Look at the tsunami." "It's alive! It's high. It looks like it stands many many feet above the buildings." "It destroys, Daughter." "How far does it go, Jesus Christ?" "From below Virginia and downward. Virginia is invaded." "Does it totally submerge Florida? I can't tell from what I'm seeing.?" "No, Daughter. Florida is invaded from the West." "That's right, Jesus Christ. I always wondered why the enemy forces would dock at a different port once the invasion of America begins after the nuclear strikes are over. How far inland does it go? This tsunami? The force and destruction of it, it's brutal. Devastation, destruction, everything swept away by the brutal force of power in the wall of water." "Roughly half of the states, Daughter, from Virginia down." "What about the bottom tip of Florida?" "It won't take the tip of Florida. That's one of the locations that will be bombed." "I see that now. It's struck in one of the nuclear strikes. The tsunami, as it hits, just bulldozes everything in its path. It looks to be 2 to 3 times higher than the tallest building that's on the shoreline. It destroys everything." "Yes it does, Daughter." "And I see, I see, I now see rocks falling. Father God, falling rocks from the sky. And it's not just the one tsunami, but some in other places. India. I see the one that hits India again." "Yes, Daughter, it is. The cataclysmic event, Daughter, that is what this is. It's THAT time." "Okay, Lord, Your will be done. And now it's all gone, the vision is gone."
